EDUCATION

University of Florida

Bachelor of Arts in Criminology

Gainesville, FL

Aug. 2024 – Dec. 2028

Study Abroad — Software Engineering & UX Design

University of Florida Sponsored Program

Cape Town, South Africa

June 2026 – July 2026

Study Abroad — Engineering & Arts

University of Florida Sponsored Program

Lille, France

June 2025 – July 2025

EXPERIENCE

Software Engineering & UX Intern

GRIT (Gender Rights in Tech)

June 2026 – July 2026

Cape Town, South Africa

- Designing a severity classification system for Zuzi, an AI chatbot supporting users facing mental health crises, abuse, and gender-based violence, to flag high-risk conversations for human intervention
- Collaborating on human-in-the-loop workflows enabling responders to quickly assess risk and intervene when AI assistance is insufficient
- Completing coursework in software engineering and UX design (6 credits) alongside applied project work in a team of 21 students

Bartender

Ford's Garage

Sept. 2024 – Present

Gainesville, FL

- Promoted from Barback to Host to Bartender over two years based on demonstrated reliability and customer service performance
- Manage full bar service for high-volume restaurant, mixing drinks, managing tabs, and ensuring compliance with alcohol service regulations
- Deliver fast, accurate service under pressure during peak hours while maintaining quality and guest satisfaction

PROJECTS

Spotify Tempo Pathfinder | C++, Vite

Dec. 2025

- Built a graph data structure in C++ to model 100,000 songs from a Spotify dataset, using tempo to weight relationships between songs
- Implemented a depth-first search algorithm to generate a song sequence progressively increasing or decreasing in tempo between a user-specified start and end song
- Collaborated with a 3-person team to compare DFS and BFS approaches for performance and output quality, contributing backend search logic alongside a Vite-based frontend

TECHNICAL SKILLS

Languages: Python, C/C++, SQL (Postgres), HTML/CSS

Frameworks: React, Node.js

Developer Tools: Git, Docker, VS Code, PyCharm

Libraries: Matplotlib
